

Renamer

Thank you!

Thank you for supporting Red Blue Games with your purchase of Mulligan Renamer from the Unity Asset Store! Documentation for Mulligan Renamer can be found [online at the GitHub repository wiki](#). You can also find the most recent version of the source code there.

For suggestions or bug reports, please [submit an issue](#) on GitHub, or email support@redbluegames.com.

Thanks also goes to those who have contributed to the project on GitHub. Giving back to the community is important to us and we are glad it is equally important to much of Unity's user base.
